## The Money Month Lesotho Campaign 2023

The public is advised that the Central Bank of Lesotho in collaboration with major stakeholders within the financial services industry in Lesotho will hold the Money Month Lesotho Campaign (MMLC) 2023 from 27th April to 27th May 2023. The MMLC is intended to equip Basotho with the necessary skills and techniques to manage their personal financial resources effectively.

The theme of this year's campaign is "Plan your money, Plant your future" (Rala chelete ea hao, Roalla le sa sele). In light of this theme, the participating organizations will, among others, educate the public on how to use money wisely including the basic understanding of financial issues such as budgeting, saving, investing, and managing risk and emotions about money.

This year's MMLC activities will take place in the two districts of Maseru and Butha-Buthe. The 2023 Campaign highlights will be in Butha-Buthe from 27th April to 04th May. During this week, the Financial Education Steering Committee (FESC) will engage a wide range of stakeholders on personal financial management. The diverse stakeholders include local authorities, civil servants, security personnel, people with disabilities, students, youth, women's associations, street vendors, the business community, and local communities. The FESC will also run a series of radio and television programmes in both districts to ensure wider publicity and reach.
